THE LUCKI*EST

RESORT 2022

To understand the value of a second in an ordinary day, to keep it in your heart as a memory: that makes us lucky. This collection is inspired by the power that recollections have when being written in our memory, in time.

Sometimes these memories arrive with the perfect dose of stillness. To look at each page and understand the majesty of details, the small and invisible.

Two rays of sun, a glass of lemonade, and the perfect bikini: this is the recipe for this journey that begins closing our eyes, feeling each heartbeat connected to the present, filling us with curiosity, making us think how many places in the world are still unknown, all the history left to write.

This collection celebrates the nomadic spirit movement, prints and silhouettes that travel from the past to meet the contemporary versions of imaginaries connected with the colorful and vibrant spirit of Agua Bendita.
